ENVIROSCIENCE CONSULTANTS, INC. BECOMES NEW YORK STATE APPROVED MOLD TRAINING PROVIDERS

RONKONKOMA, NY---- Enviroscience Consultants, Inc. has been approved by the New York State Department of Labor as Mold Training Providers.

Article 32 of the Labor Law of New York State requires, as of January 1, 2016, that all individuals and businesses advertising or providing mold related services be licensed by the Department. To do so, individuals and businesses must obtain training from approved training providers, successfully complete either of Mold Assessor, Mold Remediator, or Mold Abatement Worker training course(s), and submit application to the Department of Labor.

Enviroscience is approved to provide all three training disciplines immediately.

"We are very excited to offer our expertise and experience to our clients in the form of approved training under the regulations of Article 32," said Glenn Neuschwender, President of Enviroscience Consultants, Inc. "These courses, in addition to our existing EPA/NYS approved asbestos courses and OSHA occupational training programs, position Enviroscience as a leader in occupational health and safety training within the Metropolitan New York City area."

Enviroscience Consultants, Inc. is an environmental consulting firm specializing in asbestos, environmental remediation, lead related issues, indoor air quality (including New York State licensed mold inspections), subsurface investigations, construction inspection and testing services, occupational training and industrial hygiene. Established in 1998 by professionals with over 80 years of combined experience, our goal is to provide cost effective solutions and support to our clients throughout the Metropolitan New York area.
