

Enviroscience Consultants is accredited by the New York State Department of Health to provide certified training in all asbestos-related courses, including Handler, Supervisor, Air Sampler, Inspector, Management Planner, Project Designer and Project Monitor. Further, we are a NYS Dept. of Labor approved training provider for Mold Assessor, Mold Contractor and Mold Abatement Worker. Courses of instruction are also offered for OSHA Compliance in a wide range of topics, including lead based paint. Training courses are held at our office in Ronkonkoma, or by special arrangement at the client's location.
